FREQUENTLY ASKED QUESTIONS • SWIM LESSONS

In which class should I register my child? If your child has never had swimming lessons before and is pre-school age, a Parent & Me class should be considered. School-age students with no experience should consider a Level 1 class. For students with some experience who are comfortable in the water, a Level 2 or 3 class may be more appropriate.

I am signing up for several sessions this summer. How do I schedule my child? Can I put him/her in different levels? Generally, it is not recommended that you sign up for each level, as passing a level is not automatic, but based on completion of skills. If your child has little water experience, it is recommended you sign him/her up for the same level over multiple sessions. For students who are comfortable in the water, we recommend starting with the level completed last year as a “refresher” and then moving on to the next level for additional sessions. If your child does pass a level earlier than expected, arrangements can be made with the Pool Manager to transfer classes if class space is available. Lower level classes fill up very quickly; therefore it is much easier to move a child up than to transfer a child to a lower level.

My child is fearful of the water. What should I do? There are many different reasons why children might be fearful of the water. The best thing to do is enroll in classes with low student-teacher ratios, for example: Level 1. Children should be encouraged to learn at their own pace.

My child does better if he/she can swim with the same instructor during the summer. What can I do? Usually, staff is assigned classes depending on schedules and instructor availability. The Pool Manager will accept requests for instructors and will attempt to assign instructors as needed. However, there are no guarantees on specific instructors.

How long will it take my child to learn to swim? Every child will be given individual instruction at their own pace. Children vary greatly in their learning capabilities and motor skills. Repetition, patience, and persistence are key factors in helping to develop water skills and encouraging comfort in the water.

Are students (17 and younger) allowed to sign up for the Adult Classes? No, the Adult Swim Lessons are designed for students 18+ only.

What if I can’t swim? Swimming ability is not required. We can use a variety of flotation devices for support in deep and/or shallow water. Instructors work closely with patrons until they feel comfortable in the water.

To promote water safety and encourage exercise, Kaiser Permanente has partnered with PRCS to offer Operation Splash. This program provides low-income youth and adults with generously discounted swim lessons, Jr. Lifeguard courses, seasonal swim passes and more!

As part of Operation Splash, The Rethink Your Drink campaign urges youth and families to make healthy drink choices by choosing water and other healthy drinks instead of sugar-sweetened drinks like soda, sports drinks and energy drinks. Choose wisely - choose water and Rethink Your Drink!

Red Cross Centennial
The Centennial Campaign, in partnership with the PRCS, is helping to provide $13 swim lessons and water safety education to children and adults attending the Villegas Park and Reid Park Pools. In addition, the Centennial Campaign will provide American Red Cross Jr. Lifeguard Certifications to the first 30 participants to complete the Jr. Lifeguard Camp located at Hunt Park Pool.

If you are interested in applying, please contact the PRCS at 951.826.2000. Stop by a community center to pick up a scholarship application or visit www.RivReg.org to download an application. Completed applications must be received at least 14 days prior to the scheduled activities. Applicants will be notified at time of registration if their scholarship has been approved.

**HEAL Zone**

The Kaiser Permanente HEAL (Healthy Eating Active Living) Zone Initiative is designed to help combat obesity by making healthy choices accessible to more people in underserved communities across Southern California. The Eastside HEAL Zone will empower residents to lead healthier lives through environmental changes that are sustained by policies and enhanced by education and promotion.

**Strategies**

The Eastside HEAL Zone Initiative is a collaborative of members representing both public and private sectors, including county agencies, school district staff, community businesses, elected officials, park and community services staff, local health clinics and foundations-focused specifically on the Eastside neighborhood within the city of Riverside. Members are instrumental in planning, gathering and implementing our Community Action Plan strategies which address the following goals:

1. Reduce calorie consumption
2. Increase consumption of healthy foods and beverages (e.g., water)
3. Increase physical activity.

Parks, Recreation and Community Services Department activities that are within the HEAL Zone are noted by the HEAL Zone logo next to the activity or program title. For information contact, 951.826.2083.
